## E. Using your Jazzmate

### Introduction

- If the HDD is for initiate use, please format it.
- Using the external power adapter with this product is required.
- If your computer fails to detect the device when connecting eSATA, please try “Computer Management”—“Disk Management”—“Action”—“Rescan Disk” to find the device.
- When not in use for longer periods of time, it is recommended to turn off the device and unplug the external power adaptor.

## ***Unplug Procedure***

- Unplug Procedure on a PC (Microsoft Windows)\*
  1. Click on the taskbar icon for the external hardware
  2. Choose the external HDD and confirm to remove it
- Unplug Procedure on a Macintosh (Apple Mac OS)\*
  1. Drag the external HDD icon into the trash bin, then you can remove it.
- Unplug Procedure of eSATA

eSATA connection is hot swappable only if motherboard supports this feature. Otherwise, we suggest you to unplug the connection after the system is turn off.

\*For safe removal of your drive and assure no data is lost, always follow the unplug procedure. If not, errors message might show up.
